YALE'S PLUCKY BATTLE.

NOT STRONG ENOUGH FOR THE BRIDE-

EASTERN PARK FORMALLY OPENED FOR THE SEASON-SCORES.

There was a revival of old-time baseball enthusiasm at Eastern Park yesterday, when the grounds were formally opened by a game between the Yale College and Brooklyn teams. The official paid attendance was 99, and of that number at least 500 were women, dressed in the sprightliest spring attire. Both teams were loudly applauded when they appeared on the field, nd as good plays were made as the game went on the ise grew, and the famous baseball yell of old was heard in all its glory.

The Yale team was without the services of two of best players, Calhoun and Owsley, yet the collegians played a clever game with the exception of the fourth and eighth innings. In the fourth inning Bowers lost control of the ball and professionals batted in five runs, three of the number being earned, while one run was due to an error and the other to a base on balls. Three bases on balls and Jackson's errors were responsible for the three runs in the eighth inning. Errors by Huntington and Murphy were responsible for the two runs made by the Bridegrooms in the seventh inning. McClung's error in the minth was responsible for the

Bridegrooms' final run.

PENNSYLVANIA DEFEATS PRINCETON.

Princeton, N. J., April 18 (Special).-About 1,200 people witnessed the game between Princeton and the University of Pennsylvania this afternoon, the latter winning by a score of 6 to 4. The game was a buttle between the pitchers from the beginning. Young and Bowman were at their best and did telling work is the box. In the third inning Young had his left hand badly hurt in taking a hot liner, but continued to pitch the rest of the game. There was a dispute in the second inning, when the umpire called a balk on Bowman, but the decision was finally accepted and play was resumed. The University of Pennsylvania was represented by 200 men, who indulged in cheering their team and telling the nines how to play and correcting the umpires during the intermissions between the cheers.

After the third inning both teams settled down to steady work, and only one run was made. Princeton played a pincky up-hill game to the end, and several times made determined efforts to score, but was pre-vented by the steady work of the Pennsylvania men. The score by innings:

GAMES IN OTHER CITIES.

Washington, April 18.—The tame to-day was sharply played by the fielders, and while the butting was not heavy, there was enough of it to keep up the interest of the 3,000 spectators. Both teams made the same number of bachits, but Washington placed hers to better advantage, and, aided by two wild pitches of Cunningham when then were on bases, was enabled to win the game. Washington had made four more runs in her half the eights inning, but the game was then called on account of rain. Johnson's catch in left field and Hines's playing in centre were the features of the game. The

Louisville, April 18 .- Although the Browns made more rilies, the champions won the first game of the series from St. Louis. Doran was effective at critical times and twice, when bases were full, by good work struck out and fielded out the side. But for Hoy's magnificent work st. Louis would have been shut out. Cahlu played great game at short for Louisville. The score:

The Englewood Field Club made a good fight against the New-York Athletic Club team for live limings at Englewood, N. J., yesterday, but then went all to plees. Westervelt was wild, but struck out fourteen men. MeDonald played his first game with the Field Club. Gauns caught a good game, accepting sixteen chances without an error. The problem was solved by calling in a firm of scaffold builders, who rigged a couple of stout poles on the roof, anchored them to a derrick in the back yard, and slung a block and fall in position, with a rope an inch and a half in diameter over the pulley wheel.

After the funeral services had been conducted the sashes of a front window were removed, and the coffin was placed in a sling and attached to the pulley-rope. The signal to haul away was given to the men below and a dozen hands grasped the rope. The coffin was drawn up until it swung clear of the window sill, and was then gradually lowered to the sidewalk and placed on a couple of carpenters' horses. The spectators watched the descent with breathless interest and silent contemplation of the awful catastrophe might occur if the ropes should break or slip with their

The child's piercing screams soon brought some one to her rescue, but not before the dog had succeeded in badly lacerating her leg. Genevieve was taken into the house and the dog was locked up in the barn in the house and the dog was locked up in the barn in the rear of the premises. The dog remained in the barn only a few minutes. In some unaccountable manner he forced his way out and rushing into Mr. Gilman's kitchen, singled Genevieve out from others and at tacked her a second time. The brute bit her severely before he could be beaten off. Dr. S. P. Harned attended the suffering child and cauterized the wounds. It is not known whether the dog was mad or simply vicious. The dog was shot.

PARTY LEADERS FEAR PUBLIC SENTIMENT. The Tribune article of last Sunday exposing the in tentions of the local Democratic bosses of cutting off the heads of various city officials has caused a public sentiment which has made them call a halt for the present. The indignation expressed at the proposed change in the offices of City Clerk and Collector of Taxes, which are filled by old and experienced officers. has made it impossible with safety to make the change. Because of the desire on the part of one of the Deme cratic factions to propitiate the Republican members of the Common Council there will be no change for the present in the office of the Counsel, which is filled by a Republican. They have, however, over-

filled by a Republican. They have, however, over-come that difficulty by appointing a Democrat as associate counsel, though there is no question as to the ability or willingness of the City Counsel to attend to the duties required of him. The City Physician, after allowing the caucus to decide upon his removal and necessor, showed them the law passed in 1889 which provides that the Mayor shall appoint City Physicians in second-class cities, so between a Democrat whom they do not want and a Republican who would naturally be appointed by the Mayor they have apparently decided to keep the Democrat. Those who wanted to make the changes in

the Murshal of Poilce and Chief of the Fire Department have discovered that they come under the Tenure of Office act, and cannot be removed without cause. It is expected that the changes in the offices of After Commissioner and Water Clerk will come up at the May meeting. As almost every Democratic Alderman has at least one candidate for one office, some having a candidate for several offices, the pros-pect for the Democratic harmony which was expected to be gained by the changes have become relatively

small.

The local bemocratic newspaper said yesterday morning editorially, under the head of "Changes not Wanted": "Lately a movement has been started to sacrifice able and competent public officials. These officials have done henor and credit to themselves and brought advantage to the city as well as to the Democratic party. They are "apable, honest, and effensive to none. They guard the city's interests and the tax-payers of all parties have unlimited confidence in their relatests and integrity."

The Commissioners of Emigration have entered judgnent for \$507 against Bernard Biglin, obtained in the City Court.

aggregating about \$3,000 against Michael H. Barry, a builder, but nothing has been found to levy upon, Mr. Barry having several weeks ago transferred his flat property, at No. 27 Lewis-st., Nos. 231 and 233 Madisons. son-st., and Nos. 208 to 214 East One-hundred and second-st., the latter to William Cull, and the two former pieces to Harriet B. Webster. The properties were mortgaged, it is said, for \$133,500. Charles E. Bonwell, builder, has had mechanics

liens aggregating about \$6,000 filed against him. Judgment for \$9,645 was yesterday entered against Seorge F. Trowbridge, as surviving partner of Seely & Trowbridge, shipping merchants, formerly in the Cotton Exchange Building, in favor of Jahlal Parmly on promissory notes made May 13, 1867. The firm falled in November, 1887, with liabilities of about \$47,000.

To MR. and MRS.

(PRIVATE AND CONFIDENTIAL.)

You would probably go LIMPING THROUGH LIFE, your anatomy rent and torn by the MOST ELEGANT RREUMATIC PAINS, your stomach, liver and kidneys in a state of perpetual turmoli and rebellion; your nerves so out of tune that the slightest excitement would spoil a night's sleep, the least exertion make you "too tired for anything," before you would believe that so simple a thing as before you would believe that so simple a thing as WATER could give you any relief. If you have tried in vain every quack nostrum, and are tired and sick of NOSTRUM'S PILLS, ELECTRIC BELTS, LIVER PADS and PLASTERS, and really desire to take the URIC ACM out of your blood, which is the cause of all your grief, try LONDONDERRY LITHIA WATER, just as it is present the Great Alchemist, for the use of manpared by the Great Alchemist for the use of man.
Thousands are ready and willing to testify to its
marvellous blood-cleansing power. In THIRTY
MINUTES AFTER DRINKING IT it is circufound and carrying them off in solution through the kidneys. These crystals, if not dissolved and washed away, remain in the blood, and produce BRIGHT'S DISEASE, RHEUMATISM, GOUT, GRAVEL, HEART DISEASE, GALL STONES, DYSPEPSIA, AND A HUNDRED other week. When people have "bad blood" this is all that alls them, and they can be cured every time by a course of Londonderry Lithia Water. The proof of this is all about you, for it is safe to assert that there is not a family in New-York that does not know of some one who has been thus cured. If you still doubt, send for pamphicts containing the most absolute prost which it is possible to obtain. This pamphlet also gives in detail all the scientific facts alluded to above.
